

In this homework, we are going to learn how to use 2D arrays in cpp

Question 1. Write a program to get input n and print a maze-like table as you can see in the samples below:

Sample Input:

```
4
```

Output:

```
1 2 3 4
12 13 14 5
11 16 15 6
10 9 8 7
```

Sample Input:

```
5
```

Output:

```
1 2 3 4 5
16 17 18 19 6
15 24 25 20 7
14 23 22 21 8
13 12 11 10 9
```
